Industrial Netting is a fabricator, converter and marketer of quality extruded and oriented plastic netting, mesh and tubes, as well as photo-chemically etched and electroformed precision metal mesh. Industrial Netting serves a variety of markets and industries, including, medical, filtration, aquaculture, agriculture, recycling, automotive, industrial and pest control.

Industrial Netting offers the largest range of netting, mesh & tube products in-stock for immediate shipment and/or will custom fabricate to meet the customers specifications.

Converting and fabricating services preformed by Industrial Netting include, slitting, rewinding, die cutting, C-folding, sonic welding to name a few.

Industrial Netting is headquartered in an 72,000 square foot manufacturing and distribution facility in Minneapolis, MN. Founded in 1981 Industrial Netting celebrated 25 years in business in 2006.

Please visit our web site at www.industrialnetting.com for additional information.

Greg Frandsen, President

Greg joined Industrial Netting as President in 1999, shortly after it was acquired by the Frandsen Corporation that same year. He currently oversees all of Industrial Netting's operations. Since Greg became President, annual revenues have doubled.

Prior to joining Industrial Netting, Greg owned and operated RC Company, a business selling seasonal merchandise to the retail marketplace. He had previously worked for Plastech Corporation, another Frandsen company, helping to grow the sales of the company's Albuquerque, New Mexico division from \$5 million to \$25 million over 11 years.

Greg, son of Dennis Frandsen, earned his B.S. in Business from St. Cloud State University.
